

Resolution of the OGP Steering Committee Regarding the Participation Status of Kyrgyz Republic in in the Open Government Partnership

10 May 2024

The Steering Committee welcomes the Government of the Kyrgyz Republic's participation in the Open Government Partnership (OGP) since its accession in 2017.

The Government of the Kyrgyz Republic has been under Procedural Review since February 2023 due to not delivering an action plan for two consecutive cycles¹ (in 2021 and 2022). Furthermore, it has not delivered a new action plan by the deadline of 31 December 2023, thereby acting contrary to the OGP process again.

In light of not delivering an action plan for three consecutive years, the Steering Committee resolves to designate the Government of the Kyrgyz Republic as inactive in the OGP for one year from the date of this resolution.

The inactivity status will be lifted upon the delivery of an OGP action plan, developed in line with OGP Participation and Co-Creation Standards.

Should the Government of the Kyrgyz Republic fail to submit an action plan within the next year or work with the Steering Committee to establish a clear roadmap for its delivery, the Government of the Kyrgyz Republic will be automatically withdrawn from the list of OGP members as of 10 May 2025.

The Steering Committee remains fully committed to providing necessary assistance to facilitate the Government of the Kyrgyz Republic's continued engagement in the Partnership.

Inactive countries are ineligible to participate in Steering Committee elections, and may only attend OGP events as observers for learning purposes. The inactive status of a country will be publicly indicated on the OGP website and other relevant platforms, such as OGP social media channels or membership lists. Any country, whether active or inactive, retains the option to withdraw from the OGP at any time.
