بلدية الزريبة

Dears sirs,

The municipality of zriba is committed to respect the GOP principles which mainly aims to raise awareness especially among those who are not even aware of their legal right to information , or in some cases they are reluctant to assert it and including citizens in decisions-making and amplifying their voices with the urgent seek to develop the municipality and the strive to improve the quality of provided municipal services by keeping pace with the technological advancement by digitizing some public services enhancing access to information and making good use of new technologies to improve interaction and follow-up of public policies while strengthening transparency ,fighting corruption ,ensuring equality, justice, and fair participations of all genders and all ages.

And we're aware of the importance of this contribution to create a good governance of access to information which lies in both the willingness of government to be transparent, as well as the ability of citizens to demand and use information – both of which we're willing to enhance through this collaboration.

Sincerely,

Secretary General of zriba municipality,
