### **Summary**

This was followed by a discussion with cohort members offering feedback on the various emerging challenges and opportunities for 2024. A more comprehensive outline will be included in the strategy implementation update and draft 2024 work plan to be presented to the SC on March 21.
- Cohort members also discussed ways to make monthly meeting agendas more focused, including by developing a forward agenda and prioritizing opportunities for engagement to be discussed in addition to more general updates.
- SU will soon share an updated 2024 SC calendar. Cohort members suggested duplicating this calendar to include the different ways in which they, or the organizations they represent, are involved in upcoming events to identify synergies and foster more collaboration.
