The Honorable Sang-min Lee  
Minister of the Interior and Safety  
Government of the Republic of Korea

Dear Minister Sang-min Lee,

I'm writing to express our appreciation for the Government of the Republic of Korea's participation in the Open Government Partnership (OGP), a global initiative encompassing 77 countries and 150 local governments dedicated to advancing transparency, accountability, and citizen engagement in policy making.

As you are aware, all OGP participating governments are expected to follow the [OGP Participation and Co-Creation Standards](#) when co-creating an action plan of open government reforms. These standards have been recently updated by the OGP Steering Committee and came into effect in January 2022. The Independent Reporting Mechanism (IRM) assesses all countries that submitted action plans from 2022 onward under the updated standards.

During the 2023-2027 action plan cycle, the Republic of Korea did not meet the minimum participation and co-creation standards, as assessed by the IRM in its [Action Plan Review](#). Specifically, the Open Government Committee (OGC) did not provide stakeholders with sufficient reasoned response to their contributions during co-creation. Commitment proposals were documented in subcommittee co-creation meeting minutes, which were available to OGC members but not the public. OGC did not provide a reasoned response to these proposals and did not follow up with stakeholders whose commitment proposals were deemed not relevant to OGP values. For others, OGC informed stakeholders of how they could continue to participate in co-creation but did not provide a direct response to their proposals.

However, as the new standards were recently introduced, OGP instituted a 24-month grace period to ensure a fair and transparent transition to the updated standards. Therefore, although the Republic of Korea did not meet the minimum requirements for its 2023-2027 action plan, in this instance it did not act contrary to process and will not be subjected to procedural review.

No further action is required at this time, but in order to avoid the possibility of future review by the Criteria and Standards Subcommittee of the OGP Steering Committee, we recommend that the Government of the Republic of Korea makes every effort to meet the minimum requirements set forth in the standards during the development and implementation of its next action plan. Guidance on how to meet the new minimum participation and co-creation requirements can be found in the [OGP National Handbook](#); guidelines for their assessment by the IRM can be found [here](#).

The OGP Support Unit and Steering Committee stand ready to support you during the implementation of your current action plan and the development of your next one to make sure all requirements are met.

Yours sincerely,

Sanjay Pradhan  
Chief Executive Officer
